APPRO	VAL OF STATE ENGINEER		
This is to cartify that I have evamined the fore	againg application, and do hereby arout the same subject to the		
following limitations and conditions:	egoing application, and do hereby grant the same, subject to the		
underground source as heretofore granted under Permit 50448 is issued subject to the terms and conditions imposed in said Permit 50448 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The total combined duty of water under Permits 59133, 59134, 59136, 59137, 59138, 59140, 59141, 59142 and 59143 shall not exceed 950.0 acre-feet annually. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. (CONTINUED ON PAGE 2) The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.10 cubic feet per second., but not to exceed 20.0 acre-feet annually.			
Work must be prosecuted with reasonable diligence a	and be completed on or before		
	June 6, 1998		
Application of water to beneficial use shall be made of	on or before		
Proof of the application of water to beneficial use sha	all be filed on or before		
Map in support of proof of beneficial use shall be file	ed on or before		
Completion of work filed	IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.		
Proof of beneficial use filed	State Engineer of Nevada, have hereunto set my hand and the seal of my		
	office, this

(PERMIT TERMS CONTINUED)

Any well drilled under this permit shall be drilled in what has been described in the United States Geological Survey Water Supply Paper 2263 as the intermediate alluvial aquifer. In no instance shall the seal on this well be less than 100 feet below ground level.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

With the issuance of this permit any well drilled under previous base rights must be plugged and abandoned as stated under NAC 534.420 in the Regulations for Water Well and Related Drilling.

EXHIBIT "A"

This application is being filed in order to provide water for the proposed Lahontan Business Park on the applicant's property near Hazen, Nevada. This is the only one of it's kind in Churchill County with both rail service adjacent to the Southern Pacific mainline and a large supply of potable underground water. As such it is an important asset in the continued economic development of Churchill County.

As initially designed, the proposed park will consist of 5 to 10 acre building sites with both rail and roadway service. Primary development will be concentrated within Section 35, T.20N., R.26E., M.D.B. & M. of the proposed place of use.

The water system to service these lots will consist of a 12" mainline distribution system and a 1.3 million gallon storage tank. A sewer and storm drain system is to be constructed which will feed a 422,000 gallon capacity wastewater treatment plant constructed on site.

All wells will be reequipped and upgraded in order to provide the necessary flows to supply this project.

In summary, this is a high quality project designed to both put the water under these applications to beneficial use and to enhance the economic viability of Churchill County.

For the existing point of diversion and place of use, refer to the map filed under Permit 50442.
